Objective / Summary

Passionate 3D Environment & Computer Artist specializing in real-time rendering, stylized and realistic environments, and integrating VFX within game engines. Skilled with industry-standard tools, committed to high visual fidelity, optimization, and storytelling through world design. Seeking an environment artist role where I can leverage my strong portfolio and technical skills to contribute to immersive game or film projects.

Education

Full Sail University — Winter Park, FL
Bachelor of Science, Computer Animation | Jan 2024 – Dec 2025
• Key coursework: Environment Design, Lighting & Rendering, Compositing, Animation, Real-Time Engines

English Proficiency Program | Sep 2023 – Dec 2023

Selected Projects & Portfolio Highlights

- Urban Alleyway Environment – Unreal Engine 5

Created a detailed modular environment using Maya, Substance Painter, and Unreal Engine 5. Applied PBR textures, lighting, and post-processing for cinematic quality.

- War Zone Compositing & VFX

Fused 3D renders with live footage via Nuke and After Effects, producing a cinematic war-zone shot with visual continuity and effects integration.

- Sci-Fi Structure / Modular Building

Modeled, UV'd, and textured a hard-surface sci-fi asset set, demonstrating efficient asset re-use and optimized geometry.

- Fighter Jet VFX Sequence

Created dynamic aerial sequences using Houdini, integrated compositing in Nuke/After Effects to deliver realistic motion, trails, and environmental effects.

Technical Skills

3D / Environment / VFX Tools: Maya · Houdini · Unreal Engine / UE5 · Substance Painter · Gaea · JangaFX · ZBrush
Compositing & Post: Nuke · After Effects · Photoshop · Premiere Pro

Core Competencies: Real-Time Rendering · PBR Materials · Lighting & Shading · Scene Optimization · UV Mapping & Texturing · Material Workflow · Compositing · Visual Effects Integration · Modular Level Design · Performance Budgeting

Professional Experience

- ColdWave Beverages — CEO | Jan 2022 – Sep 2023

• Managed branding, visual identity, and design for packaging and marketing collateral.

• Oversaw production workflows and led cross-functional creative efforts.

• Created motion graphics, visual assets, and promotional visuals to tell brand story.

- Left Right Global — Social Media Manager | Aug 2021 – Jan 2022

• Produced visual content, motion graphics, and branding visuals.

• Increased engagement through consistent, high-quality visuals aligned with brand identity.

- Inox Cinemas — Creator Associate | Feb 2021 – Aug 2021

• Designed promotional 3D and motion visuals, collaborating with marketing teams to present films with immersive visual assets.

- Asiec India — Business Development Team Member | Surat, India | Jan 2021 – Feb 2022

• Collaborated with cross-functional teams to develop and implement business growth strategies.

• Conducted client outreach, presentations, and product demos, improving engagement and conversion.

• Supported visual and marketing content creation for digital campaigns, building experience in creative branding and communication.
